D E S I G N

The irreplaceable building, 1 Yorkville - designed by award-winning architect Rosario Varacalli - will be Toronto's foremost design, a building that demonstrates considerable creativity in connecting with the community.

Wrapped in faceted metallic ribbons, 1 Yorkville tower is singular, slender and elegant. The ribbons produce unique interplay of shadow and light, which move across the textured surface and emphasize a glittering effect embedded in the cityscape.

The building provides a contemporary expression of elegance and intrigue, celebrating the energy of the most desirable location and its metropolitan nature.

LOCATION

There is no address like this. Upon setting foot at the corner of Yorkville Avenue and Yonge Street, you immediately notice just how outstanding this location is. Minutes away you can stroll through the designer boutiques on Bloor St – Hermes, Holt Renfrew, Gucci or Louis Vuitton – then share a champagne cocktail at Daniel Boulud's Café at the Four Seasons. Options are made all the more endless with the nearby Bloor and Yonge subway lines and underground PATH, as well as being walking distance to the University of Toronto.

With an enviable platinum location in the heart of Yorkville, 1 Yorkville is the most desirable address in Toronto.

AMENITIES

Style cannot exist without substance. The 4th and 5th amenity floors offer a functional environment that will inspire the most dedicated health enthusiasts while also embracing those who prefer a more meditative and relaxed ambiance. The Spa is arguably our most impressive endeavor: a sprawling outdoor pool, hot tub and hot-and-cold plunge pools beckon a swim in the crystalline waters; the rest lounge and aqua massage are cool to collect thoughts and the Zen Garden is designed to ease the mind while fragrant flowers soothe the body.

For the more adventurous at heart, the Cross Fit studio offers top-tier equipment dedicated to you and your performance, along with our Fitness Gallery stocked with all top-of-the-line weight and cardio machines.
